About GreenoVET

GreenoVET – European VET Excellence Platform for Green Innovation

Programme: Erasmus+ - KA3 Support for Policy Reform => Centers of Vocational Excellence

Duration: 1.11.2020 – 31.10.2024; **Budget:** 4.381.993 €; **EU grant:** € 3.505.595 €;

Partner regions (# of partners): Styria – AT (6), Vaasa – FI (4), Leiria – PT (3), Skopje – MK (5)

“**Green innovation** comprises **all type of innovations** that contribute to the creation of key products, services, or processes **to reduce the harm, impact, and deterioration of the environment** at the same time **that optimizes the use of natural resources.**”

- Leal-Millán A. et al., „Green Innovation“, 2017

Green skills encompass set of interconnected technical and generic skills needed for **development, implementation, spreading and scaling up of green innovation.**

- GreenoVET, 2021

In GreenoVET, the primary focus is set on transversal green skills. However, in every region, the designated regionally relevant occupation specific green skills in line with the Smart Specialization Strategy are also defined.

Education types by priority for GreenoVET:

Formal learning, Non-formal, and Informal learning

EQF levels: 4 - 8

GreenoVET's skills ecosystem

Consortium and ecosystem composition:

1. Formal and non-formal VET education institutions and teachers (EQF 4-8)
2. Companies and business / industry representatives
3. Governmental institutions and NGOs

Consortium size:

Full partners: 18
Associated partners: 12
Regional committees: > 40

Styria, Austria

Vaasa, Finland

Leiria, Portugal

CDRSP CENTRO PARA O DESENVOLVIMENTO RÁPIDO E SUSTENTADO DE PRODUTO

Skopje, North Macedonia

GreenoVET objectives

To establish **four fully functional and interconnected CoVEs in Green Innovation**, embedded in the local innovation and skills ecosystems.

To **enable greentech projects**, conducted by education providers of secondary and tertiary students, jointly and in interconnected VET scenarios.

To **interconnect the industry with VET providers** on EQF levels 4-8.

To establish and strengthen **innovative teaching methods and educational trends in VET** through the CoVEs.

To **bring green innovation opportunities closer** to a broader public in Europe.

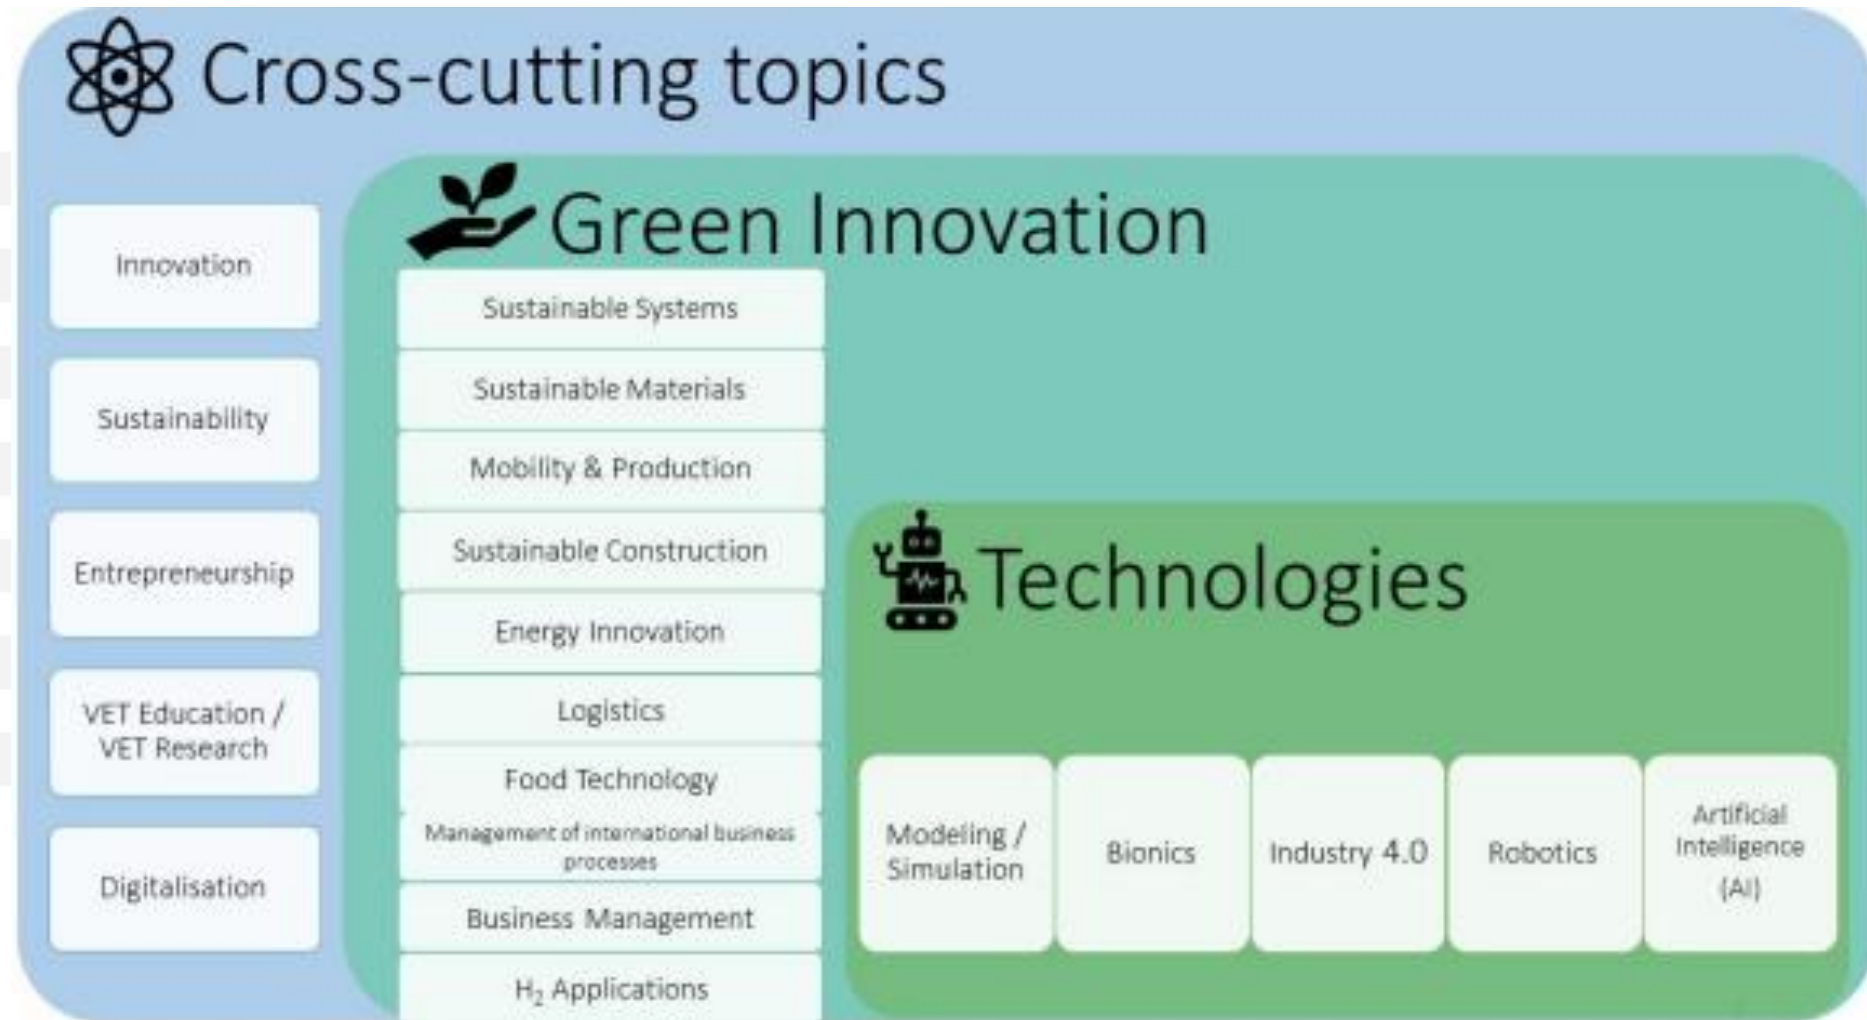

To **foster the employability and entrepreneurial readiness of VET students**, preparing and connecting them to the labour market.

To adapt **technical, pedagogical and didactical skills of VET teachers** to the upcoming environmental, social and economic challenges.

Draft of thematic areas for Styria, AT

Draft overview of educational formats and teaching methods for Styria, AT

 Educational formats	BA/MA Programms
	Certificate courses / Quality seal
	Online / On-site / Blended Learning Formats
	Courses / Trainings / Coachings
	Lectures
	Projects
	Microcredentials
	Consulting & Networking Services
	University / Professional Continuing Education Formats
	Train-the-trainer Formats
 Teaching methods	Moduls
	Case Studies
	Seminars
	Short Courses
	Summer Schools
	Challenges
	Workshops
	Tours / Company visits
	Assessments

Career guidance in Greenovet

- Greenovet aims to build a 'skills ecosystem' in each of the four CoVE regions that ensures learners gain high quality vocational skills and competences that are closely linked and co-developed with industry/business and regional needs.
- Delivered through building a wide coalition of stakeholders that develop and implement the regional strategy – reflected in management structure for each regional CoVE that brings together educational institutions, VET providers and industry.
- In each region, specific products and services will be developed.
- In Styria, a lifelong learning approach is planned that is based on modularised and 'agile' programme, with digital and online learning components. Educational programmes (ECTS levels 4-8) delivered through educational partners (higher education, VET, secondary school), supported by career guidance services within institutions.
- Private sector is also engaged to utilise the products and services for further development of skills of their employees and workers.

Skills for a Green Europe

Please get in touch if you have any further comments or interest in the presentation or GreenoVET project!
